

Central Committee of the Communist Party of Ethiopia

Directive No. 05

Date: 2024-12-12

Subject: Official Party Ideology

Matter of Importance: Central Committee and All Party Members,

Comrades,

All Members of the Party, I now do declare with the powers in the office I hold as General Secretary, the party ideology. After a direct study of our countries situation and Communism, we have concluded that it is right to declare the movement to uphold Marxist-Leninism with Mao Tse-Tung Thought embedded within our party to guide us to victory.

We find that the regime will never allow us or any other political organization to peacefully organize a electoral process for government and change. Abiy Ahmed has mastered the art of

injustice and deception and has rigged all elections he and his party have participated in. We need change, change through Communism.

Our adherence to Maoism will determine how we function to achieve change in government for Ethiopia, Establish Communism, and promote Workers Right. What we must do is declare a Peoples Republic. With that, the monopoly the regime has will never allow us without an uprising.

General Secretary Kuma

Central Committee of the Communist Party of Ethiopia
